(e) if so, when these incentives would be made applicable; and

(f) if not, the reason therefor?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M. V. CHANDRASHEKHAR MURTHY): (a) Industries manufacturing goods without aid of power are generally small in size. The general small scale exemption scheme which provides certain excise duty concessions based on value of clearances is applicable to most of these goods. In that scheme small scale units are not required to pay any excise duty for clearances upto Rs. 30 lakhs. This concession is considered adequate for small units manufacturing goods without using power. However, in certain exceptional cases, goods manufactured without using power have been fully or partially exempted from excise duty.

(b) Data about labour strength in power using detergent industries and non-power using detergent industry is not available and the time and effort spent in collecting such data may not be commensurate with the result likely to be achieved.

(c) At present there is no proposal to give any further tax incentives for industries not using power.

(d) Generally, it is true that non-power based industries help in reducing electricity consumption.

(e) and (f). Does not arise in view of (a) and (c) above.
